SECTION 5 – FIRE-FIGHTING MEASURES

Fire Hazard: Solid massive form of material is not combustible under ordinary fire conditions. Fire and explosion hazards are moderate when material is in the form of dust and exposed to heat or flames. Hazards exist also with chemical reactions, or contact with powerful oxidizers.

Combustion Products: None known.

Extinguishing Media: Dry Chemical powder, Dry Sand, Water Fog, Carbon Dioxide.

Unsuitable Extinguishing Media: Water, Moist Sand.

Protective Equipment: Self-contained breathing apparatus {(SCBA), MSHA/NIOSH}. Full protective gear.

Special Fire Fighting Procedures: Evacuate enclosed areas, stay upwind. Closed or confined quarters require self-contained breathing apparatus, positive pressure hose masks or airline masks.

SECTION 6 – ACCIDENTAL RELEASE MEASURES

Personal Precautions: Prevent contact with skin or eyes. Personnel cleaning up the spill should wear appropriate personal protective equipment, including respirators if vapor concentrations are high.

Protective Equipment: Respirators and protective clothing.

Emergency Procedures: Evacuate area and keep unnecessary and unprotected personnel from entering the spill area.

Environmental Precautions: Avoid runoff into storm sewers, ditches and waterways.

Methods for Cleaning Up: Allow to solidify and collect in sealed containers for disposal. Return to supplier for reprocessing.

SECTION 7 – HANDLING AND STORAGE

Handling

No food or drink should be allowed in areas where these products are handled. Personnel must wash thoroughly after handling the metal before drinking, eating or smoking.

Storage

Store in dry conditions. Store away from incompatible materials.
Incompatible Materials: Strong acids, oxidizers, reducing agents, halogens.

SECTION 8 – EXPOSURE CONTROLS / PERSONAL PROTECTION

Tin	2 mg/m ³	2 mg/m ³	2 mg/m ³
Antimony	N/A	N/A	0.05mg/m ³

Engineering Controls: A source of running water to flush or wash the eyes and skin in case of contact.

Ventilation: If fume or dust is being generated, mechanical ventilation must be provided to maintain exposure level below TLV's.

Personal Protective Equipment – Respiratory: Only required if TLV's are exceeded. Use a NIOSH/MSHA approved respirator for toxic dust and/or fume.

Personal Protective Equipment – Skin: Not normally needed but wash hands thoroughly.

Personal Protective Equipment – Eyes: Wear safety glasses as required.

SECTION 10 – STABILITY AND REACTIVITY

Stability: Stable.

Hazardous polymerization: Will not occur.

Conditions to avoid: Molten material may react violently with water.

Incompatible materials: Strong acids, oxidizers, reducing agents, halogens.

Hazardous decomposition products: Dust presents moderate fire and explosion hazard.

SECTION 11 – TOXICOLOGICAL INFORMATION

<u>Hazardous Chemicals</u>	<u>Toxicity</u>	
	<u>LD₅₀</u>	<u>LC₅₀</u>
Tin	N/A	N/A
Antimony	N/A	N/A

Likely Routes of Exposure: Eye Contact and Ingestion.

Symptoms and Effect - Inhalation: Inhalation of dusts and fumes must be avoided. Irritation of nose and bronchial tracts may occur as well as effects due to absorption of lead, ect. in blood stream. **Skin Contact:** Not a route of entry. **Eye Contact:** Dust or fume will be irritant. **Ingestion:** Ingestion of dust or fumes may be avoided. Lead is toxic and cumulative, affecting the kidneys, reproductive system and nervous system. Symptoms of chronic overexposure include anemia, insomnia, weakness, irritability, constipation and stomach pains. Tin is not regarded as toxic but excessive exposure can cause fever, nausea, stomach cramps or diarrhea. This product when used for welding and similar applications produces chemicals known to cause cancer and birth defects (or other reproductive harm).

Long-Term Effect: None known.

Pre-Existing Conditions: None known.

SECTION 12 – ECOLOGICAL INFORMATION

Ecotoxicity: None known.

Persistence & Degradability: Biodegradable.

Bioaccumulative Potential: None known.

Mobility in soil: In normal use, emission of Volatile Organic Compounds (VOC's) to the air takes place, typically at a rate of 0 g/l.
